

# POLSTER PHOTO COLLECTION

## Collection Description

The collection consists of almost 600 photographs of our area, with concentrations on downtown Lockport, during the 1940s, 1950s, and 1960s; shots of the Erie Canal from various vantage points and at differing times of the year; and pictures of most of Lockport's schools, churches, civil buildings, and industries. The photos were made available to the Library through the generosity of Mr. Edwin Polster, who was for many years the official photographer of Harrison Radiator Division, and whose hobby was recording the architectural history of Lockport. Photos dated prior to 1940 were re-photographed by Mr. Polster; the source of the material and the original photographer is unknown.
